

Biology Research Seminar

Monroe Hall, Room 610
12:30 – 1:30 pm

October 28

“Stress-induced endocannabinoid regulation of synaptic inhibition in the basolateral amygdala and anxiety behavior.”

Dr. Jeffery Tasker

Tulane University

.....

Dr. Tasker is researching the physiological and biochemical properties of brain cells that control pituitary hormone release. He teaches NSCI 3310/6310 (Cellular Neuroscience) and NSCI 7110 (Graduate Neuroscience).
